

### Histopathological Complex Surgical Dissectionist

- Excellent benefits including salary packaging
- Southside of Brisbane
- Challenging and rewarding work environment
- Ongoing training and development opportunities
- Permanent, full time position

#### About the Role

You will be responsible for the leadership and supervision of scientific and technical staff in the Histopathology Surgical Cut-Up area. You must be able to perform all histology and specialised histology rosters including complex surgical cut-up, IHC and general laboratory techniques to a high standard. Occasional on-call duties are required.

You will work as part of the team, and be responsible for daily laboratory operations to ensure that the team works together to produce accurate high quality work for the Pathologists. The Complex Surgical Dissectionist (Trained Delegate) will work closely with Pathologists to supervise and participate in ongoing training and competency assessment of staff and pathology trainees. Additionally, this role will be responsible for ensuring the timely and adequate performance and review of internal quality control and external technical quality assurance programs as well as update and improve operation manuals and documentation.

#### Your contribution

- The successful applicant must possess an AIMS accredited Bachelor of Applied Science (MLS), **MBBS or appropriate qualifications and substantiated experience**. Post graduate study in complex specimen dissection is desirable
- Minimum of 10 years in diagnostic Histopathology with a minimum of 5 years experience performing complex Surgical Cut-Up
- Thorough knowledge of routine histopathology laboratory practice, including understanding of Immunohistochemistry techniques
- Demonstrated commitment to personal ongoing education and professional development
- Demonstrated ability to lead constructively and mentor
- Strong organisational skills and a high degree of drive
- Adaptability and flexibility to accommodate change and provide responsive services to meet clients' needs
- Strict adherence to quality and safety standards
